Presidents' Message

As your Co-Presidents, we are excited to be writing our first article for the Chapter Newsletter. We have been busy transitioning into our new roles and are grateful for the wonderful support we have received from our Board and the membership at large. We believe that team work is the key to success and to that end, we are building that concept within our Board and between ourselves and other chapters.

We enjoyed a wonderful lunch with Claire Rabishaw, the president of the San Fernando Valley Chapter, where we got to know one another, exchanged ideas, and were in agreement on many of the issues and concerns that face our chapters.

The first issue that needs clarification is regarding the new initiative for "giving" that Brandeis presented this year. We now have three opportunities for giving: the Book Fund, Sustaining the Mind, and the new fund, "Catalyst for the Future", which will raise money for scholarships to Brandeis University. Proceeds from chapter events and personal donations may support **any or all** of these funds.

The Board of Directors of Conejo Valley Chapter feels very strongly, as does San Fernando Valley Chapter, about the Sustaining the Mind initiative and the research that the University is doing to find cures for Alzheimer's, Parkinson's, and other neurodegenerative diseases. Therefore, **we have chosen to continue to give our complete financial support to Sustaining the Mind.**

We have been assured by the general accountant at the National Office that all funds designated by us for this Fund will go to that Fund.

The second issue that we discussed and agreed upon between our two chapters was about Associate Membership.

We here on the West Coast have a different geographical situation than chapters on the East Coast. Our chapters are close together so our Associates are not "visitors", they are "neighbors", who live in the same area and attend each other's events. Therefore, we see no reason to change any of our policies or procedures regarding this issue. We hope we have brought you up to date on the current topics of concern and discussion.

If you have any questions, please contact either of us at:

Nancy Minkow NVMLCSW@aol.com 818-730-8797
Sue Geiger suaew@sbcglobal.net 805-587-8550

You are also always welcome to attend board meetings, and we hope to see you at our fabulous Fall Luncheon on October 5th at the Hyatt Westlake.

We also would like to wish you all L'Shana Tova, a Happy, Healthy New Year.

TO ALL OUR MEMBERS AND THEIR FAMILIES :
Happy, Healthy and Successful
Rosh Hashanah!

Brent's and BNC Team Up

Did you know that you can purchase gift cards to Brent's Deli through our chapter and raise money for medical research at the same time? That's right!

For every \$25 gift card you buy *FROM US*, Brent's is contributing 10% toward our fundraising efforts. You get the full \$25 value to spend at either Brent's location (Northridge or Westlake) and the chapter gets \$2.50. If you like to eat at Brent's (and who doesn't?), this is a "no brainer".

CIO REPORT (Shelly Wasserman)

INTERESTING FACTS FROM BRANDEIS UNIVERSITY

Brandeis University is at the forefront of research in many of the most exciting areas of modern life sciences. Research programs in over 50 laboratories investigate fundamental life processes ranging from the structure and function of individual macromolecules to the mechanisms that control the behavior of whole organisms. About 125 graduate students, 100 postdoctoral fellows, and numerous undergraduates explore outstanding questions in areas as diverse as neuronal development and plasticity, signal transduction, immunology, the molecular basis of genetic recombination and the three-dimensional structure of macromolecular assemblies.

Our researchers take advantage of state-of-the-art approaches in molecular and cell biology, biophysics, physiology, biochemistry and neuroscience. This breadth of scientific interests combined with a very interactive research community make Brandeis an ideal place to acquire rigorous training in modern biological research.

Brandeis scientists work to understand ALS

Finding a cure for ALS is not as easy as pouring a bucket of ice over your head; Amyotrophic lateral sclerosis, more commonly known as Lou Gehrig's disease, is a neurodegenerative disease marked by the rapid, progressive death of motor neurons that control muscle movements. At Brandeis University, Professors Suzanne Paradis and Avi Rodal are unraveling the molecular mechanics of ALS; pointing out that In order to treat ALS, we have to understand what the cells of these sporadic cases have in common. If we can understand what leads to the neurodegeneration, it might lead us to drug targets that can help slow the progression of the disease and reduce neuronal death.

LEARNING OPPORTUNITIES

The High Holidays 2015 Rosh Hashanah & Yom Kippur

September 13-15

September 22-23

Rosh Hashanah Pavlova

In this Pavlova, three of the traditional Rosh Hashanah foods come together in a way that is sure to impress. The airy meringue shell is filled with honey-vanilla cream, topped with green apples and drizzled with pomegranate coulis.

Even better, there's no need to hold the brisket! You can easily make this a non-dairy dessert.

Meringue Ingredients: 3 egg whites (from large eggs) 1 cup + 2 tbsp. sugar 2 tsp. corn starch 1 t vanilla ½ t vinegar

Meringue Directions:

1. Beat egg whites until stiff.
2. Mix the corn starch into the sugar.
3. Pour the sugar into the egg whites a little bit at a time while mixing. When the mixture is thick and stiff (ie. You should be able to turn the bowl upside down without the mixture falling out), add the vanilla and vinegar. Mix just enough to combine.
4. Line a cookie sheet with baking paper, and heat oven to 250 F.
5. Spoon the mixture into a circle, about 1 inch thick. Then build it up around the sides to create a bowl shape with a nice well in the center.
6. Bake for 1 hour, then turn the oven off and leave the shell inside for several hours. Do not open the door until it is fully cooled.
7. Keep the base in a cool, dry place for up to 2 days, until you're ready to use it. It should be crisp on the outside and sticky and marshmallowy on the inside.

Filling Ingredients: 1.5 cups heavy cream (dairy) OR 8 oz. Rich's Whip (non-dairy) OR 1.5 cups coconut cream (non-dairy). 2 tbsp. pure vanilla extract + 2 tbsp. honey

Filling Directions:

1. Beat heavy cream until soft peaks form, or beat Rich's Whip or coconut cream until stiff.
2. Gently mix in the honey and vanilla.

Pomegranate Coulis Ingredients: Seeds of 1 pomegranate ¼ cup water 2 tbsp. sugar
Juice of ½ a lemon

Pomegranate Coulis Directions:

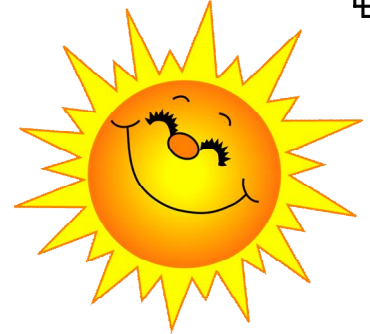

1. Simmer all the ingredients for at least half an hour. Blend.
2. Strain the mixture through a fine-mesh sieve at least twice. Refrigerate.

To Assemble: Spoon cream into the shell. Chop up 1-2 tart green apples and lay them gently on top of the cream. Drizzle with pomegranate coulis. Serve immediately.
